

## Accepted Manuscript

Title: Facile fabrication of ethylene glycol intercalated cobalt-nickel layered double hydroxide nanosheets supported on nickel foam as flexible binder-free electrodes for advanced electrochemical energy storage

Author: Changhui Wang Xiong Zhang Xianzhong Sun  
Yanwei Ma

PII: S0013-4686(15)31079-3  
DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2015.12.154>  
Reference: EA 26303

To appear in: *Electrochimica Acta*

Received date: 9-10-2015  
Revised date: 17-12-2015  
Accepted date: 23-12-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Facile fabrication of ethylene glycol intercalated cobalt-nickel layered double hydroxide nanosheets supported on nickel foam as flexible binder-free electrodes for advanced electrochemical energy storage**
