

Accepted Manuscript

Title: Process modeling of the impedance characteristics of proton exchange membrane fuel cells

Author: Seyed Mohammad Rezaei Niya Ryan K. Phillips
Mina Hoorfar

PII: S0013-4686(16)30130-X
DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2016.01.128>
Reference: EA 26510

To appear in: *Electrochimica Acta*

Received date: 21-8-2015
Revised date: 18-1-2016
Accepted date: 18-1-2016

Please cite this article as: Seyed Mohammad Rezaei Niya, Ryan K. Phillips, Mina Hoorfar, Process modeling of the impedance characteristics of proton exchange membrane fuel cells, *Electrochimica Acta* <http://dx.doi.org/10.1016/j.electacta.2016.01.128>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Process modeling of the impedance characteristics of proton exchange membrane fuel cells
