

## Accepted Manuscript

Title: Composition optimization of samarium strontium manganite-yttria stabilized zirconia cathode for high performance intermediate temperature solid oxide fuel cells

Author: Wenlu Li Chunyan Xiong Qian Zhang Lichao Jia Bo Chi Jian Pu Li Jian

PII: S0013-4686(16)30036-6  
DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2016.01.035>  
Reference: EA 26417

To appear in: *Electrochimica Acta*

Received date: 26-5-2015  
Revised date: 19-12-2015  
Accepted date: 5-1-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Composition optimization of samarium strontium manganite-yttria stabilized zirconia****cathode for high performance intermediate temperature solid oxide fuel cells**
