Title: First application of diethyl oxalate as efficient additive in high performance dye-sensitized solar cells based on iodide/triiodide electrolyte

Author: Malihe Afrooz Hossein Dehghani

PII: S0013-4686(15)01395-X
DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2015.06.024>
Reference: EA 25149

To appear in: *Electrochimica Acta*

Received date: 25-3-2015
Revised date: 1-6-2015
Accepted date: 5-6-2015

Please cite this article as: Malihe Afrooz, Hossein Dehghani, First application of diethyl oxalate as efficient additive in high performance dye-sensitized solar cells based on iodide/triiodide electrolyte, *Electrochimica Acta* <http://dx.doi.org/10.1016/j.electacta.2015.06.024>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **First application of diethyl oxalate as efficient additive in high**
2 **performance dye-sensitized solar cells based on iodide/triiodide**
3 **electrolyte**
