Title: Correlation between electrochemical impedance measurements and corrosion rate of magnesium investigated by real-time hydrogen measurement and optical imaging

Author: M. Curioni F. Scenini T. Monetta F. Bellucci

PII: S0013-4686(15)00632-5
DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2015.03.050>
Reference: EA 24576

To appear in: *Electrochimica Acta*

Received date: 31-10-2014
Revised date: 6-3-2015
Accepted date: 9-3-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Correlation between electrochemical impedance measurements and corrosion rate of magnesium investigated by real-time hydrogen measurement and optical imaging.
