Prediction of surface tension of binary refrigerant mixtures using artificial neural networks

Milad Nabipour

PII: S0378-3812(17)30404-1

DOI: [10.1016/j.fluid.2017.10.020](https://doi.org/10.1016/j.fluid.2017.10.020)

Reference: FLUID 11621

To appear in: *Fluid Phase Equilibria*

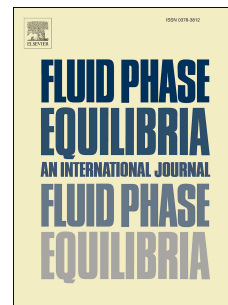

Received Date: 31 July 2017

Revised Date: 20 October 2017

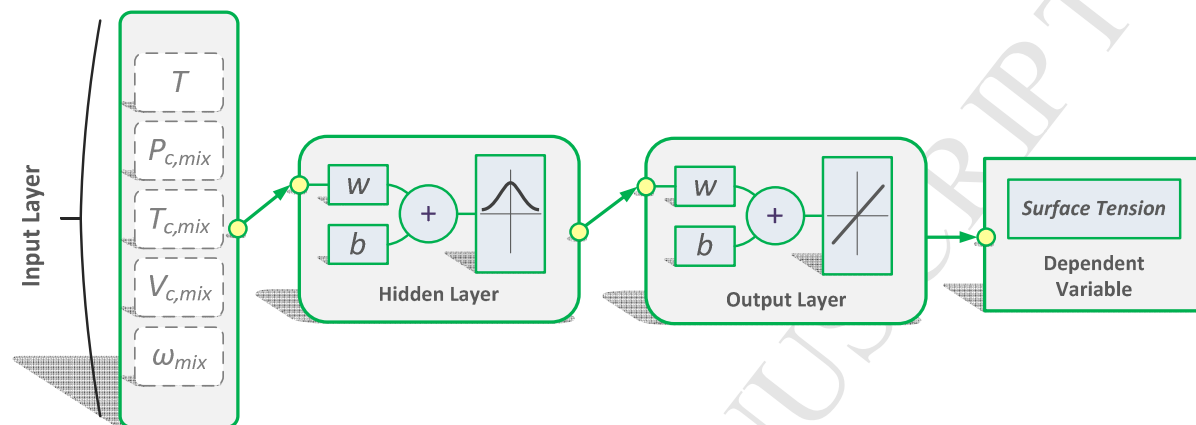

Accepted Date: 22 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
