

## Accepted Manuscript

Hydrogen evolution behavior of aluminum cathode in comparison with stainless steel for electrowinning of manganese in sulfate solution

Fan Yang, Liangxing Jiang, Xiaoying Yu, Jian Yang, Fangyang Liu, Xiaojun Lv, Yanqing Lai, Jie Li

PII: S0304-386X(17)30975-1  
DOI: doi:[10.1016/j.hydromet.2018.06.015](https://doi.org/10.1016/j.hydromet.2018.06.015)  
Reference: HYDROM 4850  
To appear in: *Hydrometallurgy*  
Received date: 27 November 2017  
Revised date: 24 May 2018  
Accepted date: 24 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Hydrogen evolution behavior of aluminum cathode in comparison with stainless steel for electrowinning of manganese in sulfate solution**
