Thermodynamic study on recovery of lithium using phosphate precipitation method

Chao Xiao, Li Zeng

PII: S0304-386X(17)30976-3  
DOI: doi:[10.1016/j.hydromet.2018.05.001](https://doi.org/10.1016/j.hydromet.2018.05.001)  
Reference: HYDROM 4807  
To appear in: *Hydrometallurgy*  
Received date: 27 November 2017  
Revised date: 18 April 2018  
Accepted date: 3 May 2018

Please cite this article as: Chao Xiao, Li Zeng , Thermodynamic study on recovery of lithium using phosphate precipitation method. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Hydrom(2017), doi:[10.1016/j.hydromet.2018.05.001](https://doi.org/10.1016/j.hydromet.2018.05.001)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thermodynamic study on recovery of lithium using phosphate  
precipitation method

Chao Xiao<sup>1</sup>, Li Zeng<sup>2</sup>
