Study on the oxygen pressure alkaline leaching of gold with generated thiosulfate from sulfur oxidation

Bin Xu, Ke Li, Qiang Zhong, Qian Li, Yongbin Yang, Tao Jiang

PII: S0304-386X(17)30927-1
DOI: doi:[10.1016/j.hydromet.2018.03.006](https://doi.org/10.1016/j.hydromet.2018.03.006)
Reference: HYDROM 4770
To appear in: *Hydrometallurgy*
Received date: 9 November 2017
Revised date: 25 February 2018
Accepted date: 6 March 2018

Please cite this article as: Bin Xu, Ke Li, Qiang Zhong, Qian Li, Yongbin Yang, Tao Jiang , Study on the oxygen pressure alkaline leaching of gold with generated thiosulfate from sulfur oxidation. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Hydrom(2017), doi:[10.1016/j.hydromet.2018.03.006](https://doi.org/10.1016/j.hydromet.2018.03.006)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Study on the oxygen pressure alkaline leaching of gold with generated thiosulfate from sulfur oxidation

Bin Xu, Ke Li, Qiang Zhong*, Qian Li, Yongbin Yang, Tao Jiang

School of Minerals Processing and Bioengineering, Central South University, Changsha 410083, China
