Accepted Manuscript

The contribution of Acidiphilium cryptum to the dissolution of low-grade manganese ores

Ernesto González, José Manuel Rodríguez, Jesús Ángel Muñoz, María Luisa Blázquez, Antonio Ballester, Felisa González

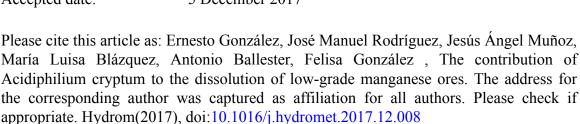

PII: S0304-386X(17)30870-8

DOI: doi:10.1016/j.hydromet.2017.12.008

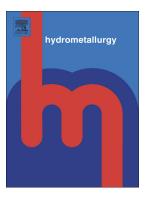

Reference: HYDROM 4712

To appear in: *Hydrometallurgy*

Received date: 23 October 2017 Accepted date: 5 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

The contribution of *Acidiphilium cryptum* to the dissolution of low-grade manganese ores

Ernesto González^{1*}, José Manuel Rodríguez², Jesús Ángel Muñoz², María Luisa Blázquez², Antonio Ballester², Felisa González².
