In situ leaching of copper: Challenges and future prospects

Laura Sinclair, John Thompson

PII: S0304-386X(15)30076-1
DOI: doi: [10.1016/j.hydromet.2015.08.022](https://doi.org/10.1016/j.hydromet.2015.08.022)
Reference: HYDROM 4157

To appear in: *Hydrometallurgy*

Received date: 10 March 2015
Revised date: 29 July 2015
Accepted date: 28 August 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

In Situ Leaching of Copper: Challenges and Future Prospects
