Thermodynamic properties of 2-methylindole: experimental and computational results for gas-phase entropy and enthalpy of formation

Robert D. Chirico, Eugene Paulechka, Ala Bazyleva, Andrei F. Kazakov

PII: S0021-9614(18)30287-8
DOI: <https://doi.org/10.1016/j.jct.2018.05.029>
Reference: YJCHT 5428

To appear in: *J. Chem. Thermodynamics*

Received Date: 6 April 2018
Revised Date: 15 May 2018
Accepted Date: 27 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thermodynamic properties of 2-methylindole:
experimental and computational results for gas-phase
entropy and enthalpy of formation

Robert D. Chirico*, Eugene Paulechka, Ala Bazyleva, and Andrei F. Kazakov
