Activity coefficients at infinite dilution and physicochemical properties for organic solutes and water in the ionic liquid trihexyl-tetradecyl-phosphonium tricyanomethanide

Andrzej Marciniak, Michał Wlazło

PII: S0021-9614(18)30004-1
DOI: <https://doi.org/10.1016/j.jct.2018.01.003>
Reference: YJCHT 5296

To appear in: *J. Chem. Thermodynamics*

Received Date: 29 September 2017
Revised Date: 27 December 2017
Accepted Date: 8 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Activity coefficients at infinite dilution and
physicochemical properties for organic solutes and
water in the ionic liquid trihexyl-tetradecyl-
phosphonium tricyanomethanide
