Modeling the Thermal Conductivity of n-Alkanes Via the Use of Density Scaling

Ricardo Macías-Salinas

PII: S0021-9614(17)30361-0
DOI: <https://doi.org/10.1016/j.jct.2017.10.001>
Reference: YJCHT 5235

To appear in: *J. Chem. Thermodynamics*

Received Date: 27 June 2017
Revised Date: 29 September 2017
Accepted Date: 3 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Modeling the Thermal Conductivity of *n*-Alkanes Via the Use of Density Scaling

Ricardo Macías-Salinas*

*ESIQIE-SEPI, Departamento de Ingeniería Química, Instituto Politécnico Nacional,
Ciudad de México 07738, MEXICO. E-mail: rms@ipn.mx*

Ms. No. JCT-17-555

Submitted for Publication to the *J. Chem. Thermodynamics*

Third Version: September 2017
