Black phosphorus quantum dots doped ZnO nanoparticles as efficient electrode materials for sensitive hydrogen peroxide detection

HouCheng Ding, Lei Zhang, ZhaoRong Tang, YongPing Dong, XiangFeng Chu

PII: S1572-6657(18)30527-7
DOI: doi:[10.1016/j.jelechem.2018.07.055](https://doi.org/10.1016/j.jelechem.2018.07.055)
Reference: JEAC 12537
To appear in: *Journal of Electroanalytical Chemistry*
Received date: 20 May 2018
Revised date: 25 July 2018
Accepted date: 30 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Black phosphorus quantum dots doped ZnO nanoparticles
as efficient electrode materials for sensitive hydrogen
peroxide detection**
