

Accepted Manuscript

Electrochemical technology for the treatment of real washing machine effluent at pre-pilot plant scale by using active and non-active anodes

Florymar Escalona Durán, Danyelle Medeiros de Araújo, Chrystiane do Nascimento Brito, Elisama Vieira dos Santos, Soliu O. Ganiyu, Carlos A. Martínez-Huitle

PII: S1572-6657(18)30283-2
DOI: doi:[10.1016/j.jelechem.2018.04.029](https://doi.org/10.1016/j.jelechem.2018.04.029)
Reference: JEAC 4016

To appear in: *Journal of Electroanalytical Chemistry*

Received date: 23 December 2017
Revised date: 8 April 2018
Accepted date: 15 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Electrochemical technology for the treatment of real washing machine effluent at pre-pilot plant scale by using active and non-active anodes
