Amperometric sensing of sulfite using a gold electrode coated with ordered mesoporous carbon modified with nickel hexacyanoferrate

Supatcha Preecharueangrit, Panote Thavarungkul, Proespichaya Kanatharana, Apon Numnuam

PII: S1572-6657(17)30869-X
DOI: doi:[10.1016/j.jelechem.2017.11.070](https://doi.org/10.1016/j.jelechem.2017.11.070)
Reference: JEAC 3700

To appear in: *Journal of Electroanalytical Chemistry*

Received date: 25 August 2017
Revised date: 5 November 2017
Accepted date: 27 November 2017

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Jeac*(2017), doi:[10.1016/j.jelechem.2017.11.070](https://doi.org/10.1016/j.jelechem.2017.11.070)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
