

Accepted Manuscript

Title: Mutton bone derived hydroxyapatite supported TiO₂ nanoparticles for sustainable photocatalytic applications

Authors: Narendra Singh, Rajat Chakraborty, Raju Kumar Gupta

PII: S2213-3437(17)30665-6
DOI: <https://doi.org/10.1016/j.jece.2017.12.027>
Reference: JECE 2074

To appear in:

Received date: 11-8-2017
Revised date: 5-11-2017
Accepted date: 13-12-2017

Please cite this article as: Narendra Singh, Rajat Chakraborty, Raju Kumar Gupta, Mutton bone derived hydroxyapatite supported TiO₂ nanoparticles for sustainable photocatalytic applications, Journal of Environmental Chemical Engineering <https://doi.org/10.1016/j.jece.2017.12.027>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Mutton bone derived hydroxyapatite supported TiO_2 nanoparticles for sustainable photocatalytic applications
