

Accepted Manuscript

Title: Pre-treatment of industrial olive oil mill effluent using low dosage health-friendly cationic polyelectrolytes

Authors: Anita Lourenço, Julien Arnold, José Gamelas, Olivier J. Cayre, Maria G. Rasteiro

PII: S2213-3437(17)30587-0
DOI: <https://doi.org/10.1016/j.jece.2017.11.029>
Reference: JECE 1996

To appear in:

Received date: 1-8-2017
Revised date: 16-10-2017
Accepted date: 9-11-2017

Please cite this article as: Anita Lourenço, Julien Arnold, José Gamelas, Olivier J. Cayre, Maria G. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Pre-treatment of industrial olive oil mill effluent using low dosage health-friendly cationic polyelectrolytes
