

Accepted Manuscript

Title: Superior adsorption capacity of strontium titanate and titania composites for anionic dyes removal

Authors: Swathi Gugulothu, Satyapaul A. Singh, Giridhar Madras

PII: S2213-3437(17)30445-1
DOI: <http://dx.doi.org/10.1016/j.jece.2017.09.007>
Reference: JECE 1855

To appear in:

Received date: 11-7-2017
Revised date: 31-8-2017
Accepted date: 2-9-2017

Please cite this article as: Swathi Gugulothu, Satyapaul A.Singh, Giridhar Madras, Superior adsorption capacity of strontium titanate and titania composites for anionic dyes removal, Journal of Environmental Chemical Engineering <http://dx.doi.org/10.1016/j.jece.2017.09.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Superior adsorption capacity of strontium titanate and titania composites
for anionic dyes removal**
