Alcoholic extraction of sesame seed cake oil: Influence of the process conditions on the physicochemical characteristics of the oil and defatted meal proteins

Maria C. Capellini, Larissa Chiavoloni, Vanessa Giacomini, Christianne E.C. Rodrigues

PII: S0260-8774(18)30318-2  
DOI: 10.1016/j.jfoodeng.2018.07.029  
Reference: JFOE 9343  
To appear in: *Journal of Food Engineering*  
Received Date: 19 December 2017  
Accepted Date: 23 July 2018

Rodrigues, Alcoholic extraction of sesame seed cake oil: Influence of the process conditions on the physicochemical characteristics of the oil and defatted meal proteins, *Journal of Food Engineering* (2018), doi: 10.1016/j.jfoodeng.2018.07.029

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 Alcoholic extraction of sesame seed cake oil: Influence of the  
2 process conditions on the physicochemical characteristics of the oil  
3 and defatted meal proteins

4

5 *Short title:* Alcoholic extraction impact on the sesame oil and defatted meal

6
