Ethanol pre-treatment improves vegetable drying and rehydration: kinetics, mechanisms and impact on viscoelastic properties

Meliza Lindsay Rojas, Pedro E.D. Augusto

PII: S0260-8774(18)30139-0
DOI: 10.1016/j.jfoodeng.2018.03.028
Reference: JFOE 9212
To appear in: *Journal of Food Engineering*
Received Date: 10 November 2017
Revised Date: 09 February 2018
Accepted Date: 29 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
