A Review of Sublethal Effects of Pulsed Electric Field on Cells in Food Processing

Man-Sheng Wang, Lang-Hong Wang, Alaa El-Din A. Bekhit, Jing Yang, Zhen-Ping Hou, Yan-Zhou Wang, Qiu-ZhongDai, Xin-An Zeng

PII: S0260-8774(17)30510-1
DOI: 10.1016/j.jfoodeng.2017.11.035
Reference: JFOE 9095
To appear in: *Journal of Food Engineering*
Received Date: 09 August 2017
Revised Date: 19 November 2017
Accepted Date: 26 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

highlights

- 1 The sublethal effects of PEF on cells in food processing were discussed.
- 2 The protective mechanisms of sublethal effects for cells were featured.
- 3 some methods which could be combined with PEF and enhance the bactericidal effect were discussed.
