

## Accepted Manuscript

Title: Synthesis of silver/silver chloride/exfoliated graphite nano-photocatalyst and its enhanced visible light photocatalytic mechanism for degradation of organic pollutants

Authors: Jianfeng Gou, Xiaohui Li, Huixuan Zhang, Ruonan Guo, Xiaoyong Deng, Xiuwen Cheng, Mingzheng Xie, Qingfeng Cheng

PII: S1226-086X(17)30550-6  
DOI: <https://doi.org/10.1016/j.jiec.2017.10.011>  
Reference: JIEC 3667

To appear in:

Received date: 17-6-2017  
Revised date: 28-8-2017  
Accepted date: 4-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Synthesis of silver/silver chloride/exfoliated graphite nano-photocatalyst and its enhanced visible light photocatalytic mechanism for degradation of organic pollutants**
