Title: Study of chemical environments for washing and descaling of food processing appliances: an insight in commercial cleaning products

Authors: Margherita Basso, Michele Simonato, Riccardo Furlanetto, Luigi De Nardo

PII: S1226-086X(17)30158-2
DOI: <http://dx.doi.org/doi:10.1016/j.jiec.2017.03.041>
Reference: JIEC 3354

To appear in:

Received date: 3-2-2017
Revised date: 21-3-2017
Accepted date: 22-3-2017

Please cite this article as: Margherita Basso, Michele Simonato, Riccardo Furlanetto, Luigi De Nardo, Study of chemical environments for washing and descaling of food processing appliances: an insight in commercial cleaning products, Journal of Industrial and Engineering Chemistry <http://dx.doi.org/10.1016/j.jiec.2017.03.041>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Study of chemical environments for washing and descaling of food processing appliances: an insight in commercial cleaning products
