Title: Novel approach for the synthesis of nitrogen-doped titania with variable phase composition and enhanced production of hydrogen under solar irradiation

Authors: Police Anil Kumar Reddy, P. Venkata Laxma Reddy, Ki-Hyun Kim, Mandari Kotesch Kumar, Chennaiahgari Manvitha, Jae-Jin Shim

PII: S1226-086X(17)30231-9
DOI: <http://dx.doi.org/doi:10.1016/j.jiec.2017.04.033>
Reference: JIEC 3405

To appear in:

Received date: 20-10-2016
Revised date: 18-4-2017
Accepted date: 22-4-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

18 April 2017 (R1)

Novel approach for the synthesis of nitrogen-doped titania with variable phase composition and enhanced production of hydrogen under solar irradiation
