

## Accepted Manuscript

Title: Experimental study of jet impingement cooling with carbon dioxide at supercritical pressures on micro structured surfaces

Authors: Kai Chen, Rui-Na Xu, Pei-Xue Jiang

PII: S0896-8446(18)30144-X  
DOI: <https://doi.org/10.1016/j.supflu.2018.05.002>  
Reference: SUPFLU 4265

To appear in: *J. of Supercritical Fluids*

Received date: 28-2-2018  
Revised date: 19-4-2018  
Accepted date: 2-5-2018

Please cite this article as: Kai Chen, Rui-Na Xu, Pei-Xue Jiang, Experimental study of jet impingement cooling with carbon dioxide at supercritical pressures on micro structured surfaces, The Journal of Supercritical Fluids <https://doi.org/10.1016/j.supflu.2018.05.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Experimental study of jet impingement cooling with carbon dioxide at supercritical pressures on micro structured surfaces
