Title: Experimental investigation and optimization of supercritical carbon dioxide extraction of toxic heavy metals from solid waste using different modifiers and chelating agents

Author: S.M. Ghoreishi Ali Hedayati K. Ansari

PII: S0896-8446(16)30179-6
DOI: <http://dx.doi.org/doi:10.1016/j.supflu.2016.06.012>
Reference: SUPFLU 3689

To appear in: *J. of Supercritical Fluids*

Received date: 16-3-2016
Revised date: 20-6-2016
Accepted date: 21-6-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Experimental investigation and optimization of supercritical carbon dioxide extraction of toxic heavy metals from solid waste using different modifiers and chelating agents

S.M. Ghoreishi*, Ali Hedayati, K. Ansari
