Gas-solid fluidization with liquid bridging: A review from a modeling perspective

C.M. Boyce

PII: S0032-5910(18)30397-8
DOI: [doi:10.1016/j.powtec.2018.05.027](https://doi.org/10.1016/j.powtec.2018.05.027)
Reference: PTEC 13400
To appear in: *Powder Technology*
Received date: 11 November 2017
Revised date: 3 April 2018
Accepted date: 15 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

April 1st, 2018

Gas-solid fluidization with liquid bridging:
A review from a modeling perspective

C. M. Boyce^{1,2*}
