Numerical simulation and optimization of hydrodynamics in a novel integral multi-jet spout-fluidized bed

Feng Wu, Xuan Zhang, Wenjing Zhou

PII: S0032-5910(18)30421-2
DOI: doi:[10.1016/j.powtec.2018.05.048](https://doi.org/10.1016/j.powtec.2018.05.048)
Reference: PTEC 13421
To appear in: *Powder Technology*
Received date: 25 November 2017
Revised date: 19 March 2018
Accepted date: 24 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Numerical simulation and optimization of hydrodynamics in a novel integral multi-jet spout-fluidized bed

Feng Wu^{1*}, Xuan Zhang¹, Wenjing Zhou²
