

Accepted Manuscript

Liberation and release of rare earth minerals from middling Kittanning, fire clay, and West Kentucky no. 13 coal sources

Qingqing Huang, Aaron Noble, John Herbst, Rick Honaker

PII: S0032-5910(18)30256-0
DOI: [doi:10.1016/j.powtec.2018.03.063](https://doi.org/10.1016/j.powtec.2018.03.063)
Reference: PTEC 13294
To appear in: *Powder Technology*
Received date: 3 January 2018
Revised date: 20 March 2018
Accepted date: 24 March 2018

Please cite this article as: Qingqing Huang, Aaron Noble, John Herbst, Rick Honaker , Liberation and release of rare earth minerals from middling Kittanning, fire clay, and West Kentucky no. 13 coal sources. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Ptec(2017), doi:[10.1016/j.powtec.2018.03.063](https://doi.org/10.1016/j.powtec.2018.03.063)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Liberation and Release of Rare Earth Minerals from Middling Kittanning, Fire Clay, and West Kentucky No. 13 Coal Sources
