Cellulose nanoparticles encapsulated cow urine for effective inhibition of pathogens

Koh Hann Suk, Subash C.B. Gopinath, Periasamy Anbu, Thangavel Lakshmipriya

PII: S0032-5910(18)30011-1
DOI: doi:[10.1016/j.powtec.2018.01.010](https://doi.org/10.1016/j.powtec.2018.01.010)
Reference: PTEC 13096

To appear in: *Powder Technology*

Received date: 19 June 2017
Revised date: 15 November 2017
Accepted date: 5 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cellulose Nanoparticles Encapsulated Cow Urine for Effective Inhibition of Pathogens
