Separation Analysis of Dry High Intensity Induced Roll Magnetic Separator
for Concentration of Hematite Fines

Sunil Kumar Tripathy, P.K. Banerjee, Nikkam Suresh

PII: S0032-5910(14)00532-4
DOI: doi: [10.1016/j.powtec.2014.05.065](https://doi.org/10.1016/j.powtec.2014.05.065)
Reference: PTEC 10320

To appear in: *Powder Technology*

Received date: 4 October 2013
Revised date: 14 May 2014
Accepted date: 31 May 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Separation Analysis of Dry High Intensity Induced Roll Magnetic Separator for
Concentration of Hematite Fines**
