Title: Polymer waste materials as fillers in polymer mortars:
experimental and finite elements simulation

Authors: Miguel Martínez-López, Gonzalo Martínez-Barrera,
Juan José del Coz-Díaz, Juan Enrique Martínez-Martínez,
Osman Gencel, Maria C.S. Ribeiro, Víctor Varela-Guerrero

PII: S2214-5095(18)30042-1
DOI: <https://doi.org/10.1016/j.cscm.2018.e00178>
Reference: CSCM 178

To appear in:

Received date: 6-2-2018
Revised date: 20-5-2018
Accepted date: 22-5-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Polymer waste materials as fillers in polymer mortars: experimental and finite
elements simulation**
