Large Deflection Analysis of Planar Curved Beams Made of Functionally Graded Materials Using Variational Iterational Method

Ugurcan Eroglu

PII: S0263-8223(15)00949-6

DOI: <http://dx.doi.org/10.1016/j.compstruct.2015.10.017>

Reference: COST 6926

To appear in: *Composite Structures*

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**LARGE DEFLECTION ANALYSIS OF PLANAR CURVED BEAMS MADE OF
FUNCTIONALLY GRADED MATERIALS USING VARIATIONAL ITERATIONAL
METHOD**
