Title: Inverse modeling of the urban energy system using hourly electricity demand and weather measurements, Part 1: Black-box model

Authors: Afshin Afshari, Luiz A. Friedrich

PII: S0378-7788(17)30196-2
DOI: <http://dx.doi.org/doi:10.1016/j.enbuild.2017.01.053>
Reference: ENB 7328

To appear in: *ENB*

Received date: 22-10-2016
Revised date: 11-12-2016
Accepted date: 17-1-2017

Please cite this article as: Afshin Afshari, Luiz A. Friedrich, Inverse modeling of the urban energy system using hourly electricity demand and weather measurements, Part 1: Black-box model, Energy and Buildings <http://dx.doi.org/10.1016/j.enbuild.2017.01.053>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Inverse modeling of the urban energy system using hourly electricity demand and weather measurements, Part 1: Black-box model

Afshin Afshari^{1*}, Luiz A. Friedrich¹
