

## Accepted Manuscript

Title: Estimation of thermophysical properties of lightweight mortars made of wood shavings and expanded polystyrene beads using a hybrid algorithm

Author: A. Adili M. Lachheb A. Brayek A. Guizani S. Ben Nasrallah

PII: S0378-7788(16)30093-7  
DOI: <http://dx.doi.org/doi:10.1016/j.enbuild.2016.02.039>  
Reference: ENB 6456

To appear in: *ENB*

Received date: 27-1-2015  
Revised date: 15-1-2016  
Accepted date: 19-2-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Estimation of thermophysical properties of lightweight mortars made of wood shavings and expanded polystyrene beads using a hybrid algorithm**
