

## Accepted Manuscript

Bifurcation analysis of fracture mode by simulated and experimental ductile fracture progress based on the proposed crack opening criterion

Michiaki Kobayashi , Jun-ichi Shibano

PII: S0020-7683(18)30087-8  
DOI: [10.1016/j.ijsolstr.2018.02.031](https://doi.org/10.1016/j.ijsolstr.2018.02.031)  
Reference: SAS 9919

To appear in: *International Journal of Solids and Structures*

Received date: 23 September 2017  
Revised date: 15 February 2018  
Accepted date: 20 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Bifurcation analysis of fracture mode by simulated and experimental ductile  
fracture progress based on the proposed crack opening criterion**

Michiaki Kobayashi <sup>1,\*</sup> and Jun-ichi Shibano <sup>1</sup>
