Accepted Manuscript

A reformulation of constitutive relations in the strain gradient elasticity theory for isotropic materials

Shenjie Zhou, Anqing Li, Binglei Wang

 PII:
 S0020-7683(15)00434-5

 DOI:
 10.1016/j.ijsolstr.2015.10.018

 Reference:
 SAS 8937

To appear in: International Journal of Solids and Structures

Received date:	12 April 2015
Revised date:	12 September 2015
Accepted date:	15 October 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- The Abstract and the Conclusion parts have been rewritten and polished.
- The use of the English language has been improved with the help of the language editing service.
- The research objectives and procedures are presented more clearly in the revised manuscript.
