

Accepted Manuscript

Mixed-Mode Thermal Stress Intensity Factors from the Finite Element Discretized Symplectic Method

Zhenhuan Zhou, A.Y.T. Leung, Xinsheng Xu, Xiaowei Luo

PII: S0020-7683(14)00290-X

DOI: <http://dx.doi.org/10.1016/j.ijsolstr.2014.07.016>

Reference: SAS 8455

To appear in: *International Journal of Solids and Structures*

Received Date: 16 May 2014

Revised Date: 21 July 2014

Please cite this article as: Zhou, Z., Leung, A.Y.T., Xu, X., Luo, X., Mixed-Mode Thermal Stress Intensity Factors from the Finite Element Discretized Symplectic Method, *International Journal of Solids and Structures* (2014), doi: <http://dx.doi.org/10.1016/j.ijsolstr.2014.07.016>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
