

## Author's Accepted Manuscript

Multi-damage identification of large-scale truss structures using a two-step approach

Narges Fallah, Seyed Rohollah Hoseini Vaez, Ali Mohammadzadeh

PII: S2352-7102(18)30151-7  
DOI: <https://doi.org/10.1016/j.jobee.2018.06.007>  
Reference: JOBE514

To appear in: *Journal of Building Engineering*

Received date: 8 February 2018  
Revised date: 12 June 2018  
Accepted date: 13 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
