Accepted Manuscript

Optimization of 4th generation distributed district heating system: Design and planning of combined heat and power

Mohammad Sameti, Fariborz Haghighat

PII: S0960-1481(18)30720-1

DOI: 10.1016/j.renene.2018.06.068

Reference: RENE 10224

To appear in: Renewable Energy

Received Date: 12 October 2017

Revised Date: 15 June 2018 Accepted Date: 17 June 2018

Please cite this article as: Sameti M, Haghighat F, Optimization of 4th generation distributed district heating system: Design and planning of combined heat and power, *Renewable Energy* (2018), doi: 10.1016/j.renene.2018.06.068.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
