Multi-objective exergoeconomic and exergoenvironmental optimization of continuous synthesis of solketal through glycerol ketalization with acetone in the presence of ethanol as co-solvent

Mortaza Aghbashlo, Soleiman Hosseinpour, Meisam Tabatabaei, Hajar Rastegari, Hassan S. Ghaziaskar

PII: S0960-1481(18)30755-9

DOI: [10.1016/j.renene.2018.06.103](https://doi.org/10.1016/j.renene.2018.06.103)

Reference: RENE 10259

To appear in: *Renewable Energy*

Received Date: 3 January 2018

Revised Date: 18 April 2018

Accepted Date: 25 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
