

# Accepted Manuscript

An Advanced Approach for Optimal Wind Power Generation Prediction Intervals by Using Self-Adaptive Evolutionary Extreme Learning Machine

Tawfek Mahmoud, Zhao Yang Dong, Jin Ma

PII: S0960-1481(18)30341-0  
DOI: 10.1016/j.renene.2018.03.035  
Reference: RENE 9904  
To appear in: *Renewable Energy*  
Received Date: 07 May 2017  
Revised Date: 12 March 2018  
Accepted Date: 14 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
