Relationship between Anaerobic Digestion Characteristics and Biogas Production under Composting Pretreatment

Shuzhen Zou, Di Kang

PII: S0960-1481(18)30264-7
DOI: 10.1016/j.renene.2018.02.112
Reference: RENE 9843
To appear in: *Renewable Energy*
Received Date: 19 September 2017
Revised Date: 07 January 2018
Accepted Date: 24 February 2018

Please cite this article as: Shuzhen Zou, Di Kang, Relationship between Anaerobic Digestion Characteristics and Biogas Production under Composting Pretreatment, *Renewable Energy* (2018), doi: 10.1016/j.renene.2018.02.112

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Relationship between Anaerobic Digestion Characteristics and Biogas**
2 **Production under Composting Pretreatment**
