

## Accepted Manuscript

Title: A distributed control strategy based on droop control and low-bandwidth communication in DC microgrids with increased accuracy of load sharing

Authors: Pedram Ghalebani, Mohsen Niasati

PII: S2210-6707(17)31627-X  
DOI: <https://doi.org/10.1016/j.scs.2018.04.011>  
Reference: SCS 1051

To appear in:

Received date: 29-11-2017  
Revised date: 13-3-2018  
Accepted date: 5-4-2018

Please cite this article as: Ghalebani, Pedram., & Niasati, Mohsen., A distributed control strategy based on droop control and low-bandwidth communication in DC microgrids with increased accuracy of load sharing. *Sustainable Cities and Society* <https://doi.org/10.1016/j.scs.2018.04.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## A distributed control strategy based on droop control and low-bandwidth communication in DC microgrids with increased accuracy of load sharing
