s.pridmore@utas.edu.au

(Corresponding author: Professor S Pridmore, as above)

Authorship: Both authors were involved in the design of the study and acquisition and interpretation of data, and the drafting and revision and final approval of the paper.

Highlights**Not all suicide is preventable**

- Public statements that ‘all suicide is preventable’ are frequently reported in the media
- This leads to guilt among relatives and penalties for professionals
- This paper demonstrates this public statement to be inaccurate
- Suicide triggers include mental disorder, loss, shame, and pain
- Cultural and other factors make only some suicide preventable
