Manuscript Text: 299 (excluding references); Number of charts – 0, Number of Tables-0.

Sir,

These are my few points as a reader regarding the original article published on perceived stress and expressed emotion (EE), social support in first episode psychosis (Sadath, Muralidhar, Varambally, Gangadhar, & Jose, 2017). This study had helped the researchers in the area of first episode psychosis to gain an in-depth and nuanced understanding of a particular area of interest.
