

Accepted Manuscript

Temperature affects microbial abundance, activity and interactions in anaerobic digestion

Qiang Lin, Jo De Vrieze, Jiabao Li, Xiangzhen Li

PII: S0960-8524(16)30278-4

DOI: <http://dx.doi.org/10.1016/j.biortech.2016.02.132>

Reference: BITE 16182

To appear in: *Bioresource Technology*

Received Date: 15 January 2016

Revised Date: 25 February 2016

Accepted Date: 27 February 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Temperature affects microbial abundance, activity and interactions in anaerobic digestion
