Energy requirements for wet solvent extraction of lipids from microalgal biomass

Gregory J.O. Martin

PII: S0960-8524(16)00029-8

DOI: <http://dx.doi.org/10.1016/j.biortech.2016.01.017>

Reference: BITE 15924

To appear in: *Bioresource Technology*

Received Date: 7 December 2015

Revised Date: 8 January 2016

Accepted Date: 10 January 2016

Please cite this article as: Martin, G.J.O., Energy requirements for wet solvent extraction of lipids from microalgal biomass, *Bioresource Technology* (2016), doi: <http://dx.doi.org/10.1016/j.biortech.2016.01.017>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Energy requirements for wet solvent extraction of lipids from**
2 **microalgal biomass**
